2.6.1: Programme Outcomes (POs) and Course Outcomes (COs) for all Programmes offered by the institution are stated and displayed on website.

Program Outcomes (POs): Program Outcomes are overarching statements that describe what students are expected to know and be able to do by the time they graduate from a particular academic program. These outcomes are often broad and are meant to capture the overall skills, knowledge, and abilities that students should have acquired during the course of their program. POs are typically aligned with the institution's mission and the specific goals of the academic program.

Course Outcomes (COs): Course Outcomes are specific statements that describe the knowledge, skills and abilities that students are expected to acquire by the end of a particular course. Unlike Program Outcomes, Course Outcomes are more granular and focus on the content and objectives of individual courses within a program.

Program Specific Outcomes (PSOs): Program Specific Outcomes (PSOs) are a set of statements that further specify the skills and knowledge that students are expected to gain from a specific academic program. While Program Outcomes (POs) are broad and apply to the overall program, Program Specific Outcomes are more focused on the specialized aspects of a particular branch or specialization within that program.

Every semester the College Academic Committee reviews the PO's, PSO's, CO's in tune with the changes in the curriculum. An orientation session shall be conducted to the faculty on the development of Program Outcomes, Program Specific Outcomes and Course Outcomes in alignment with the curriculum prescribed by the University.
