Description	<p>The Department of Business Administration, Omega P.G.College was organized a webinar on “Session on Design Thinking and Problem Solving” on March 16, 2022 under the aegis of IQAC. The session focused on Design thinking and Problem-Solving skills. In total 90 students attended the session.</p> <p>Prof Devi Bhavani Nair, Professor interacted with the students and told them about design thinking and problem solving. She said “design thinking is a unique method of problem-solving that focuses on user needs first. Those who use design thinking do not need to be designers. It emphasizes observing people and their environments with empathy and using those observations to develop innovative ideas with an iterative, build-and-test approach.” She explained that design thinking process is a never-ending iterative process. Your design team can choose when the user’s needs are met to form a final product, or they can choose to iterate on the design to create alternate variations that solve for different needs.</p> <p>On the behalf of Omega P.G.College Dr. B. Sammaiah, Professor, Department of Business Administration presented a memento as a token of gratitude.</p> <p>This session was extremely successful and very interactive as it gave a lot of enlightening learning to the students.</p>
